PROFESSIONAL EXPERIENCE

- **Xingyun Group (Parent Company of Polibeli, U.S.-Listed)**   **Shenzhen, China**
  - **Investment Analyst Intern, Corporate Development / M&A**   **DEC.2025 - Present**
    - Conducted industry and company-level due diligence on cross-border e-commerce, consumer goods, and digital supply chain targets, supporting the Group's strategic M&A and minority investment initiatives
    - Built financial models (3-statement, valuation, and scenario analysis) to evaluate acquisition feasibility, synergies, and post-merger value creation
    - Performed market sizing and competitive landscape analysis across Southeast Asia, Europe, and China to assess consolidation and international expansion opportunities
    - Assisted in deal execution processes, including investment memos, IC materials, data room organization, and coordination with legal, finance, and external advisors
    - Analyzed historical transactions and public comparables, including U.S.-listed peer benchmarks, to support pricing, negotiation strategy, and investment committee decisions

- **Guangda Securities Co., Ltd.**   **Shenzhen, China**
  - **Data Analyst Intern**   **JUN.2024 – Aug.2025**
    - Conducted advanced data analysis on stock market trends and client portfolios, providing actionable insights to support investment decision-making processes
    - Developed predictive models using Python and SQL to forecast stock performance, improving portfolio risk management and optimizing trading strategies
    - Automated data processing workflows, reducing analysis time by 28% and increasing reporting accuracy for financial advisory teams
    - Monitored real-time market data to generate reports on sector performance, aiding in the development of data-driven investment strategies
    - Conducted deep-dive analysis of client trading behavior, identifying patterns to recommend personalized financial solutions, resulting in a 13% increase in client retention

- **Thousand Cities Strategic Algorithms Cloud Technology Co., Ltd.**   **Shenzhen, China**
  - **Business Data Analyst Intern**   **May 2020 – Aug. 2021**
    - Analyzed data from central banks in Yemen, Jordan, Saudi Arabia, and other Middle Eastern countries to identify key trends and optimize the implementation of algorithmic financial tools and cloud-based systems, improving operational efficiency
    - Conducted in-depth market analysis to assess opportunities in financial technology, providing actionable insights to tailor solutions aligned with regional needs and regulatory requirements
    - Leveraged data visualization techniques to present findings and strategic recommendations, facilitating enhanced decision-making for banking institutions
  - **Project Assistant**
    - Facilitated cooperation between local governments in China and financial institutions, delivering customized financial technology services to optimize public fund management
    - Organized inter-departmental workshops, streamlining communication between banks and government bodies to ensure the successful deployment of financial solutions
    - Assisted in the creation of data-driven reports and policy recommendations for local governments, improving financial strategies using advanced analytics
